1. Log into your UKBloggers.net profile.
2. Go to the person's profile that you wish to block from contacting you.
3. Click on the "**Block User**" link in the profile page of the user. The Block User link should be located underneath the Basic information section.
4. A " User Blocked Successfully! " message should appear above the Block user section.
5. The user has now been blocked from making contact with you!
