---

1. Log into your UKBloggers.net profile.
2. Click on the **Member** tab on the Menu bar of the site.
3. Now point to the **Applications** tab in the information box and click on " **Browse** ".
4. A New page will appear with a list of Applications to chose from. Select any application that you want to add and click on the **Green button** under the actions column.
5. A new pop window will appear saying " Application Added ".
6. Now click on Settings and edit the details if required and click on save.

Your Application is successfully added.
